New Numbering System on San Pablo Ave. Up for Council Debate Monday

The question of whether Albany will join with other East Bay cities in adopting a continuous numbering system on San Pablo Ave. from Oakland to the City of San Pablo will be presented for discussion at the regular meeting of the City Council Monday night at the City Hall.

Headed by the San Pablo Chamber of Commerce, the

plan is designed to eliminate confusion over the duplication of numbers on the avenue passing through the cities of Oakland, Emeryville, Berkeley, Albany, El Cerrito and San Pablo.

This movement to obtain a satisfactory numbering system on San Pablo Ave. is a matter of extreme importance to the Bay Area, said Carlfield, chairman of the Albany Ave. Re-numbering committee.

He said that the cities of Richmond, El Cerrito and San Pablo indicated that they are ready to adopt the proposed system. Oakland and Emeryville have approved the plan since there would be no change in their present numbering.

The Berkeley City Council Tuesday morning referred the proposal to a committee for further study.

Beatrice Raymond, president of Albany Chamber of Commerce said today that the local

plan "but it is the general consensus of opinion that it will be an expensive proposition."

The main objection would be re-numbering for old business establishments," she added. "This would necessitate the changing of signs and stationary at a great expense to merchants."

On the other hand, the uniform numbering system would be of convenience to the traveling public, there are so many duplications of numbers in the various streets," said Mrs. Raymond.

Albany SOROPTIMIST News

Albany Soroptimists today know more about the customs and manners of Manila after hearing an address by Miss Fancisca Soriano of Manila, now attending the University of California where she is majoring in political science.

Speaking before members and guests at the Wednesday luncheon, Miss Soriano presented an interesting picture of the American occupation after World War II. She told of the very definite part the women are taking in political fields, and said that the Philippine women were the first women in the East to vote.

"They receive equal pay for equal work and there are many more women lobbyists than men," she said. "The women are more persistent and consequently are not especially favored by members of the Legislature."

Miss Soriano emphasized that the efforts of the Americans in educating the Philippine people has not been in vain and that the Philippine women are not far behind their American counterpart.

Mrs. William Otani spoke briefly in favor of Proposition No. 2 on the November 4 ballot, urging everyone to help raise the educational standards by voting "Yes."

June McMealon, chairman of ways and means, reported plans have been completed for the barbecue to be held at her home Sunday. She said all tickets have been sold.

President Ruby Kampe announced the next regular meeting will be a home luncheon at the home of Miriam Gilsenan, 2963 Magnolia St., Berkeley. Guests are welcome.

A native of Iowa, Mr. Cook had resided in Albany since 1941. Prior to that he lived in Berkeley eight years. He was employed as a color pressman with the Oakland Tribune 31 years.

He is survived by his wife, Nellie; a daughter, Marcella Norton of Walnut Creek; a son, Frank of El Cerrito and a brother, Delbert of Oregon; six grandchildren and one great grandchild.

Council OK's Administrator

Mrs. Zahn Circulating Petition

Councilwoman Mrs. Kathie Zahn today is circulating a referendum petition to halt the establishment of a city administrator type of municipal government in Albany.

The City Council Monday night voted in the new centralized system by a 4-1 vote over objections of Mrs. Zahn. The legislation was passed by a resolution—rather than an ordinance—to eliminate the possible threat of referendum action.

Mrs. Zahn said today, however, that "even though" the legislation was done by resolution it is subject to referendum by the people as upheld by the courts in the cases of Spencer vs. City of Alhambra and Hopping vs. City of Richmond."

The Councilwoman estimated that she will need the signatures of 1100 registered Albany voters to force the Council to rescind its action or put the measure on the ballot at the next election.

Mrs. Zahn issued the following statements in a Wednesday press release:

"I am convinced that the citizens of Albany do not wish to have the administrator type of government in their city, because in June, 1950, they voted down a proposal of a previous City Council to create a city manager form of government. And again they voted down at the last April municipal election—barely five months ago—a proposition of the Albany City Council that would have facilitated the establishment of the office of city administrator (it appeared on the Albany ballot last April as Proposition No. 4).

"I feel very strongly that we do very nicely in Albany without a city administrator. The City Council is able during this fiscal year to buy about \$22,000 worth of new equipment, including a streetsweeper, ambulance, truck and new police cars—was able to grant good salary increases, had about \$7500 left over from last year's budget, was able to grant larger budgets to its various departments and still had about \$35,000 left over that was put in a capital outlay fund for the eventual building of a new city hall, fire house and police station.

"Besides from all of that, we have no money in our budget to pay for the office of an administrator. The salary for a good man plus a secretary and a special car allowance and a special expense account plus an office where he can hold his meetings would cost many, many thousands of dollars per year which we can ill afford to spend.

"The administrator would not be able to save Albany a great deal of money through centralized purchasing power because our largest item in the budget is the payroll—about 63 per cent. On other items such as gravel, gas and oil and equipment, bids are asked for by the city and for the rest of the purchases the administrator would not save enough to produce his own salary.

"Besides the proposed administrator form of government is in direct conflict with our present City Charter and gives the man powers that can lead only to dictatorship. As long as he carries out the wishes of three Councilmen and pleases them his position is safe regardless of what his actions would be—whether he would work for the good of the city or not.

"I was elected by the people to carry out their wishes, and pledged to the best of my ability to work for the taxpayers and the good of the city. Here the citizens of Albany twice have decided very definitely by vote that they do not want to centralize control of their government.

"In order to protect the citizens' rights, I am circulating as of today (Wednesday) a referendum petition which for the time being will stop the hiring of an administrator. I know it will be a lot of work because I will need about 1100 signatures of registered voters in Albany. But it is for a good cause and I do it gladly."

Mayor Terms Referendum Action Tragic

Mayor Jerome Blank today issued a statement terming the referendum proceedings against the city administrator type of government as "tragic" and predicted that any attempt to "block progress and efficient and business-like city government shall not succeed."

"It is certainly tragic that any Councilmember would attempt to deny the people of Albany the type of government that the entire country by progressive cities.

"I don't believe any person can show me a business the size of the City of Albany that is run by a part-time Board of Directors, without some kind of a general manager, administrator, or executive head, to see that the policies of the Board are carried out along administrative lines.

"The City Council voted to hire an administrative officer only after the most exhaustive studies were made of the need for the position, and after consulting with many other cities as well as the League of California Cities, which heartily endorsed the Council's action.

"The present City Council, while proud of its record of ending the last fiscal year with a substantial surplus, is ever striving to give the people of Albany better service and more efficient government.

"The Council feels that the large majority of citizens will support any attempt to give them better government such as is offered by the city administrator system, especially when this can be achieved without additional cost or taxes."

Councilman William Donahue, who proposed the creation of the city administrator office, also issued a statement regarding the referendum. He said:

"In as much as it was I who made the proposal for the creation of this office, I feel that it is my duty to inform the general public of Albany that only after thorough study of this type of office now in use in many of the cities of our State, it was proposed by resolution and passed by a 4 to 1 vote to create such an office for our city.

"It was publicly stated by a Councilmember that the office will cost the city too much money, but has the Councilmember stopped to think what the cost of a referendum to the taxpayer will cost the city? Approximately \$3500.

"I feel that if the public does not have confidence enough in the Council elected by their choice to study and make decisions for them in such matters, if their every decision might be subjected to such referendum proceedings, then the referendum should be directed against the Council.

"The city administrator was proposed by resolution and passed by a majority 4 to 1 vote that this office would be in the best interest of Citizens of Albany, not to cost them more money, but to give them better service for the tax dollars spent."

Surplus Equipment Nets City \$1978

The City of Albany today has added \$1978 to its treasury as the result of a recent auction sale held to dispose of surplus equipment.

The following items were auctioned to the highest bidder: Chevrolet dump truck, \$330; 1942 Ford dump truck, \$460; 1939 Jaeger paver, \$155; 1936 Ford truck, \$350; 1941 Jaeger mixer, \$200; power mower, \$75; scrap iron collectors, \$18; and scrap iron, \$5.

City Engineer A. L. Brinckman said that a comparison between prices received at this auction and the various offers made in the past indicates that public auction is the most profitable way to dispose of surplus equipment.

New Post Created to Streamline Muni Setup

The Albany City Council Monday night created the new post of city administrator with the aim of streamlining the municipal government setup.

The measure was passed in the form of a resolution by a 4-1 vote of the Council over the protests of Councilwoman Mrs. Kathie Zahn, who charged the new plan would give the city administrator "powers that can only lead to dictatorship."

Introduced by Councilman William Donahue several weeks ago, duties of the administrator include that of purchasing agent, auditor, preparing reports, correlating and coordinating city activities and attending to administrative affairs between meetings of the Council.

The Council approved the new post by resolution instead of the usual ordinance to eliminate "any threat of a referendum" and forcing a city-wide election on the proposed plan.

Mayor Jerome Blank termed the new plan as "a forward step for the city."

"I do not claim we will have cheaper government," he said, "but I will stand on the conviction there will be no tax rate increase."

Mrs. Zahn also charged that "there is no money in the budget to finance the new system, that it is in direct conflict with the City Charter and that there is not sufficient opportunity for a great savings to be made to the city."

In other business, the Council accepted "with regret" the resignation of Police Inspector Robert Turley, who has accepted a post with the George Cake Co. of Berkeley, a dealer in police department equipment.

Police Chief Stanley C. Williams stated in a letter to the Council:

"I'm sorry to have him leave the department as he has been a good officer. He has been cooperative, and has worked for the betterment and efficiency of the department at all times."

A request of the Solano Ave. Merchants Ass'n. that parking zones be set up on all cross streets 100 feet north and south of Solano Ave. was referred to the Police Chief for recommendation.

Bazaar Will Aid St. Ambrose Fund

The Ladies Sodality of St. Ambrose Church completed final arrangements Tuesday for the St. Ambrose Parish Bazaar to be held Saturday and Sunday, October 25 and 26 at St. Mary's College High School, Albina and Hopkins Sts., Berkeley.

Two years ago the group sponsored a parish bazaar to spark the building fund for a new church, according to Father James Cain, honorary chairman. Despite unusual weather conditions, strikes and other setbacks, the goal has been accomplished and a beautiful new House of God will be dedicated in the near future.

The bazaar, to be held both afternoons and evenings, will feature unusual fancy work, towels, aprons, ceramics, candies and home baked goods. There will be games and entertainment for the entire family, and a chicken dinner will be served Sunday.

Regular Sabbath eve services will be held tonight at 8:15 o'clock at Temple Beth-El, Arch and Vine Sts., Berkeley. Rabbi Sidney Akselrad will preach on the theme, "A Believing Jew."

Albany to Launch TB Xmas Seal Drive

The 1952 Christmas Seal Sale will officially open in Albany on Monday, November 17, Edwin S. Howell, local seal chairman for the Alameda County Tuberculosis and Health Association, said today.

Christmas Seals, the traditional symbols of the nation's fight against tuberculosis, will be used more widely than ever this year to decorate holiday gift packages, Howell predicted.

"In the past," the Seal Sale leader stated, "Christmas Seals have been principally used on greeting cards and envelopes, but this year the idea of decorating holiday gift packages is being introduced so that the people of our community who give so generously to support tuberculosis control in this area may have added practical use for the seals that they buy."

Using window and counter displays, East Bay area stores will demonstrate the use of the 1952 Christmas Seal in wrapping holiday packages, he said.

Sample packages showing how seals can be used for attractive decorations have been created by one of the nation's leading gift wrapping firms, Tie-Tie Products Division of the Chicago Printed String Company.

Suggestions for use of the seals in package designs will be featured in H. C. Capwell's annual holiday gift wrapping classes to be given Tuesday and Wednesday, October 28 and 29, at 3:30 p.m. on the fifth floor of the Oakland store, 20th and Broadway.

"The Christmas seal that fights TB is as much a part of the holiday tradition as holly wreaths and gaily decorated trees," Howell declared.

Each year the PTA holds the bazaar to raise money for the many projects and activities they sponsor and aid throughout the year, always keeping in mind child welfare.

Whether you are seeking handmade articles or an afternoon of fun, Mrs. John Gavey, Jefferson PTA president, extends a welcome to attend.

ALBANY BOWLING NEWS

By FRANK LACY

The Womens All-Star League will stage its annual Halloween show at 8:30 p.m. Wednesday at Albany Bowl.

All of these nationally famous girls will bowl in full costume and this year's show will be bigger and better than the one that captivated hundreds of onlookers last year.

Bloody pirates, cowboys and Indians, babes in the woods and characterizations too numerous to mention are scheduled for unveiling that night. The annual party will be held in the Spare Room after the contest has become one of the highlights of the Bay Area bowling fraternity.

President Fay Slausen is in charge of party arrangements.

School Youth to Appraise Albany In Essay Contest

Local residents should learn a lot about Albany and its activities during the next few weeks. Junior and senior high school students today have been invited to express their frank opinions in essays on the topic of "What I Think About My Hometown!" The results should be revealing.

"It's a good citizenship-type of contest sponsored by the Royal Typewriter Co.," said George Bernard, 1114 Solano Ave., local dealer and chairman of the contest.

"We want our children to tell us what they think about the hometown. These leaders of tomorrow, I am sure, will offer numerous constructive criticisms today that can benefit the community in the future," he added.

In addition to cash prizes, 206 of them ranging from \$200 to \$10, gold typewriters will be awarded to the first, second and third place winners, providing the entries are signed by the local dealer. Cash awards will be doubled when signed by Bernard.

Bernard said entries in the senior division, 10 th, 11th and 12th grades, should not exceed 500 words.

Entries are to be mailed by no later than November 17, to the Royal Portable Contest, Scholastic Magazines, Room 400, New York, N. Y.

I was just wondering if every body in California has forgotten about us in Korea? I am just a lonely airman with our Far East Air Force somewhere in Korea, so I am writing this plea to you for mail. I am hoping and praying you will print this plea in your newspaper, for I have had no mail in six months as I have no one to write to. I was thinking if you print this plea, maybe some young lady might care to write.

I am 22 years old, five feet, 10 inches tall, weigh about 180 pounds, blue gray eyes and dark brown hair. I attended Notre Dame and I like all sports. My address is A/2c Fred Massey, A.F. 18379015, 18th Food Service Sq., APO 970, c/o Postmaster, San Francisco, Calif.

Thanks a lot,

TV NEWS

By JIM BLANCHARD

We mustn't become impatient at the delay in getting our new video stations underway. To a television actor, a conflict means working on two shows whose time overlap. To applicants for new TV stations, however, a conflict means that someone else wants the same channel and these conflicts are a major factor in determining when a city gets a new TV station.

When more than one applicant asks for a channel in a certain city, the FCC must hold hearings to determine which is the best qualified applicant and because of the numerous applicants on these hearings on each case consumes a lot of time. However, don't worry. The U.S. eventually will have more than 2,000 TV stations and almost every home in America will have access to TV.

Just chatting around: According to a network survey, 67.3% of all TV sets are turned on Tuesdays at 8 p.m. (just in case you're interested!)

The Ronald Colmans of radio's "Hall of Ivy" fame, who originally went on record as saying they were not interested in television, now are conferring with a producer on a good format for the new medium. See how everyone is joining the parade? ... Did you ever stop to think how complex a mechanism your TV set is... the maze of tubes, condensers and wires... all necessary for the efficient performance of your set... and for the proper servicing of your set, you need a specially trained technician... and that's where we come in. Television is our business. Our service department is staffed by factory trained experts ready to serve you. So if your set doesn't operate properly, call us today at SKIP'S RADIO & TELEVISION SERVICE, 1553 Solano Avenue... Phone: Landscape 5-4313.

OUR SCHOOLS ARE IN TROUBLE! Because of the inflation, soaring birth rate, and huge out-of-State population increase since the end of the War, most school districts in California today just don't have enough money to make ends meet!

PROPOSITION 2 IS THE ANSWER. Proposition 2 gives school children and taxpayers both a break by increasing the State's share of school support—thus keeping our schools open without increasing the tax burden on homeowners.

WE ALL WANT BETTER SCHOOLS. We may differ deeply on election day over candidates and other ballot issues, but we all agree our children's educational needs must be met. That's why Democrats and Republicans, labor, business and farmers, all say: *Whatever you do—*

Vote "YES" on Proposition 2

"I made over a 50% down payment on a late-model car. I was told it would cost me \$257.60 to insure the car and finance the balance of \$700.00.
